Career Objective

Motivated and detail-oriented MCA student with a strong foundation in Artificial Intelligence, Machine Learning, and full-stack development. Eager to learn and grow in the AI domain, with hands-on exposure to Deep Learning, NLP, and Computer Vision concepts. Seeking an AI Intern role where I can assist in developing, testing, and optimizing AI/ML models, contribute to data collection, cleaning, and preprocessing, and build scalable, real-world AI-powered solutions while continuously learning and growing.

Education

- **Dayananda Sagar Academy of Technology and Management** — Bengaluru, India
  MCA, Master of Computer Applications; CGPA: 8.6 (Dec 2024 – Jun 2026)
- **MESMSPS First Grade Degree College** — Chikkamagalur, India
  BCA, Bachelor of Computer Applications; CGPA: 8.4 (2021 – 2024)

Skills

- **Artificial Intelligence & Machine Learning:** AI/ML fundamentals, Model Development & Testing, NLP, GenAi, Computer Vision, CNN (Deep Learning)
- **Data Handling:** Data Collection, Data Cleaning, Data Preprocessing
- **General Purpose Languages:** C, Python, Java
- **Problem Solving:** Data Structures using C
- **Web Development:** HTML, CSS, JS, UI/UX
- **Database:** PHP, SQL, MongoDB
- **Computer Networking:** TCP/IP Model, IP Addressing, DNS, Cisco Packet Tracer, Network Topologies, etc.
- **Version Control:** Git and GitHub

Projects

- **Brain Tumor Detection Using Deep Learning:** Built a system to automatically detect brain tumors from MRI scan images using Deep Learning concepts such as CNN, reducing manual effort for doctors and improving diagnostic accuracy through AI.
- **Smart Health Tracking:** Developed a health tracking application with a BMI calculator, daily food logging, and an AI-powered chat box that delivers personalized health insights to users.
- **Shopping Mall Management System:** Developed a full-stack system using Spring Boot and PostgreSQL to manage shops, customers, products, and orders through RESTful APIs.
- Created an **IPL performance Dashboard** (2008-2022) in Power BI Tool to showcasing the batsmen and bowlers yearly performance, along with team-wise trophy insights.

Certifications

- Full Stack Development - Web Vinyasa Tec-Solution
- Java Full Stack Development - TNS Foundation
- Power BI - Office Master
- IBM SkillsBuild - Customer Engagement: Problem Solving and Process Control

Activities & Leadership

- Coordinated a college project team: divided tasks among members and tracked progress.
- Team Presenter: represented the team during project reviews and discussions, explaining concepts clearly.
- NSS Volunteer: led awareness campaigns and coordination efforts.
- Kho-Kho: Represented kho-kho team in state level tournament.
